TAKE YOUR PRODUCT TO **NEW HEIGHTS**

The Kohler Custom-Built Screw Auger makes easy work of loading industrial food processing equipment. Proven to perform in the most demanding operations, Kohler Industries builds every screw auger with heavy-duty, high-quality materials. Likewise, careful consideration is given to tailored performance options such as your production requirements, screw length, hopper style, infeed, and discharge heights.

FEATURES IAND OPTIONS NCLUDE:

- Custom infeed and discharge heights
- Hydraulic or electric
- Adjustable or fixed position
- Standard, or surge hopper
- 100% stainless steel construction
- Hinged guards with safeties
- Easy to clean, meets sanitary equipment design requirements
- Rugged construction

Our dedicated team works with you from start to finish. We listen to your production requirements and develop solutions for your unique needs.

New equipment from Kohler is simple and standardized; no high-priced proprietary parts here! Preventative maintenance and repairs are straightforward. Parts are typically on hand to reduce your downtime and keep your operation moving.

Designed for longevity, we build every machine to last. For this reason our machines retain value over time better than any other manufacturer.

Powered raise/lower and powered pivoting features available.

WHY KOHLER INDUSTRIES? **RAISING EXPECTATIONS**

CUSTOM SPECS

Your product is unique. It's only natural your equipment is too. Our in-house design and assembly teams tailor-build all machines to your needs.

IN STOCK PARTS

We keep the parts you depend upon in stock, fairly priced, and ready to ship quickly. Let's keep your operation running smoothly.

CUSTOMER SERVICE

Our customers are our partners. When you win, we win. As such, speak directly with our industry experts, engineers, and technicians at any time.

EXPERIENCE

We're not just saying we make the cut, we are industry experts. Our leadership team has over 100 years of combined industry wisdom.

BUILT TOUGH

We build rugged, dependable equipment that lasts. Benefit from lower maintenance costs, shorter downtimes and reduced long-term inventory rates.

MADE IN USA

Born in the Midwest, all our equipment is made in the USA to ensure top quality. We oversee every aspect of production.
